Division of Environmental Health Services Wins National Award

San Bernardino: The Division of Environmental Health Services (DEHS) recently won a National Association of Counties (NACo) Achievement Award for Information Technology for the development of a mobile website. The NACo Achievement Award is presented annually to programs which develop innovative methods to improve communication, service, and reduce costs. DEHS partnered with the County of San Bernardino Information Services Department to create the mobile website.

San Bernardino County residents are now able to access DEHS resources while away from their home or office by visiting http://m.sbcounty.gov/dehs on their iPhone, Android or Blackberry. Smartphone users can visit the mobile website to locate a restaurant and view its rating by the health department. The public can immediately notify DEHS regarding health and safety issues by submitting a complaint while information is still fresh in their mind. Visitors to the mobile website can also see the latest news from DEHS and view information about food recalls.

For more information about the mobile website or other Environmental Health services, contact the County of San Bernardino, Department of Public Health, Division of Environmental Health Services at (909) 387-4692 or visit our website at www.sbcounty.gov/dehs.
